

BIOMED
SUPPORT SERVICES

BIOMED SUPPORT SERVICES IS BRINGING FT10 TRAINING TO VBA.

Biomed Support Services is pleased to announce two one-day courses on the FT10 energy platform. The instructor, Dale Munson, is back with his simple-as-possible training materials and passion for helping biomed. Plan on attending this highly beneficial training event.

Course Topics

- Why the FT10?
- Features & Benefits: A Matter of Perspective
- Review of Electrosurgery & Technology
- Menu System Familiarization
- Mechanical Design
- Principles of Operation
- Teardown/Removal & Replacement
- Troubleshooting

Cost:

The course--which is usually \$1195--is provided at the special conference rate of **\$495** per student.

Benefits:

- ✓ Hospitals maximize their equipment investment
- ✓ Simple in-house repairs save OEM service costs
- ✓ Increased confidence for better, faster troubleshooting
- ✓ Troubleshooting tips that extend beyond electrosurgery
- ✓ Faster PMs
- ✓ Critical knowledge for BMET test
- ✓ Student materials provide much more information than the OEM service manuals

Registration

Course registration is via the VBA website.

Testimonial Statements

“ Superior! Lots of hands-on. Great Instructor, very knowledgeable!
- Biomed Participant, Kaiser Permanente
San Diego, CA, September 2018

The best training I've received for any equipment!

- Biomed Participant, Cleveland Clinic
Dover, OH, August 2018

SEPTEMBER 26-27, 2019
9:00 am - 4:00PM/day

Wintergreen Resort
Route 664
Wintergreen, VA 22958
